ISC-WAI Admin Panel
Video Tutorial Brief

FOR VIDEO EDITOR Document type: Staff tutorial · Target length: **3–5 minutes** · Languages: **English + Urdu** voiceover

Product: **ISC-WAI — Admin** (web panel) · Brand green: #0F7A2C

Audience: Administrators and CRM staff · Style: Step-by-step operations tutorial

> **How to use this document:** Record the *dedicated Admin web app* (desktop Chrome), not the investor mobile app. Follow scenes in order. Each scene has screen actions plus English and Urdu voiceover suggestions.

> **Access note:** Admins use a separate entry — run / open the Admin web target (title: "ISC-WAI — Admin"), not the customer mobile app for day-to-day ops. Roles: **admin** (full access) and **crm** (CRM + notifications only).

1. Video goals

- Show how staff sign in and how Admin vs CRM roles differ.
- Tour the left navigation (rail / drawer) and daily ops flow.
- Demonstrate KYC approve/reject, deposit & withdrawal queues, deposit bank settings.
- Cover investors, CRM, returns, daily markets, fees, reports, broadcast.
- Keep tone professional and procedural — training for internal users.

2. Production notes for editor

Item	Guidance
Length	3–5 minutes (aim ~4:15). Optional short CRM-only cut (~90 sec).
Format	Desktop screen recording + bilingual VO
Browser	Chrome, wide window so Navigation Rail is visible (≥720px)
Account	Demo admin account; optional CRM account for role difference
Privacy	Blur real investor CNIC, bank, phone, emails; use demo data
Do not dwell	Backdated Entries / Auto Backfill (mention only as "advanced / careful use")
Do not show	Passwords, production secrets, real customer PII

3. Admin navigation map

#	Menu item	Purpose
1	Overview	KPIs: users, pending KYC, deposits, withdrawals, totals
2	KYC queue	Review and approve/reject investor KYC
3	Deposits	Approve/reject deposit requests + proof
4	Deposit Settings	Company bank details shown to investors
5	Withdrawals	Approve/reject withdrawal requests
6	Change Requests	Profile / bank / nominee change tickets
7	Investors	Search investors, open full profile
8	CRM home / investors / team	Follow-ups, notes, communications, create CRM users
9	Returns	Apply monthly returns, projection, repair tools
10	Daily markets	Five-sleeve allocations, rates, holidays, EOD
11	Fee management / Earnings / Fee ledger	Fee config and company income
12	Investor reports	Upload PDF statements for investors
13	App updates	Publish Android APK / force-update policy
14	Notifications / Broadcast	Staff inbox + message all investors
—	Backdated Entries / Auto Backfill	Admin-only historical tools (optional mention)

Role matrix (say this once)

Capability	Admin	CRM
Overview, KYC, money queues, fees, returns, markets, reports, broadcast, app updates	Yes	No
CRM home, assigned investors, notes / follow-ups / communications	Yes	Yes
Create CRM team users	Yes	No
Notifications inbox	Yes	Yes

4. Daily ops flow (happy path)

1. Open Admin web app → Sign in with work email
2. Overview → check pending counts
3. Clear KYC queue (Approve / Reject with reason)

4. Process Deposits (check proof → Approve)
5. Process Withdrawals
6. Handle Change Requests
7. Assign / work CRM follow-ups
8. As needed: Returns, Daily markets, Fees, Broadcast, Upload reports

5. Scene-by-scene storyboard (3–5 min)

Scene 1 — Access & login

0:00 – 0:25

SHOW Admin login page: logo, “Admin sign in”, “ISC-WAI — KYC operations”, Work email, Password, Sign in.

EN VO “Welcome to the ISC-WAI Admin panel. Staff do not use the investor mobile app for daily operations — open the Admin web panel and sign in with your work email and password. Only accounts with Admin or CRM role can enter.”

UR VO

آئی ایس سی وائی ایڈمن پینل میں خوش آمدید۔ روزمرہ کام کے لیے انویسٹر موبائل ایپ استعمال نہیں ہوتی — ایڈمن ویب پینل کھولیں اور اپنے ورک ای میل سے سائن اِن کریں۔ صرف ایڈمن یا سی آر ایم رول والے اکاؤنٹس داخل ہو سکتے ہیں۔

Scene 2 — Shell & Overview

0:25 – 0:55

SHOW Left rail menu; Overview cards: Total users, Pending KYC, Pending deposits/withdrawals, totals in PKR. Theme / language prefs; Sign out in app bar.

EN VO “After login, Admins land on Overview — your operational snapshot. The left menu is your map of every tool. CRM staff land on CRM home instead, with limited menus. Start every day by checking pending KYC, deposits, and withdrawals.”

UR VO

لاگ اِن کے بعد ایڈمن Overview پر آتے ہیں — آپ کا آپریشنل سنیپ شاٹ۔ بائیں مینو ہر ٹول کا نقشہ ہے۔ سی آر ایم اسٹاف براہِ راست CRM home پر جاتے ہیں، محدود مینو کے ساتھ۔ ہر دن pending KYC، ڈیپازٹس اور وِدڈرالز چیک کر کے شروع کریں۔

Scene 3 — KYC queue

0:55 – 1:30

SHOW KYC queue table → View details → review CNIC images, bank, nominee → Approve (or Reject with required reason).

EN VO “Open KYC queue. Select an investor, review identity documents, bank details, and nominee. Tap Approve when everything is correct, or Reject and enter a clear reason so the investor can fix and resubmit.”

UR VO

KYC queue کھولیں۔ سرمایہ کار منتخب کریں، شناختی دستاویزات، بینک اور نامزد شخص چیک کریں۔ سب درست ہو تو Approve دبائیں، ورنہ Reject کریں اور واضح وجہ لکھیں تاکہ صارف درست کر کے دوبارہ بھیج سکے۔

> Blur CNIC photos and personal numbers on camera.

Scene 4 — Deposits, Deposit Settings, Withdrawals

1:30 – 2:20

SHOW Deposits → Pending tab → View request → proof + fee preview → Approve / Approve & Complete or Reject. Deposit Settings: bank name, account holder, IBAN, preview, Save. Withdrawals queue: same approve/reject pattern.

EN VO “In Deposits, open pending requests, verify payment proof and the fee preview, then Approve. Deposit Settings is where you publish the company bank account investors see when they transfer money — keep it accurate. In Withdrawals, review the amount against the investor’s money-market balance and Approve or Reject.”

UR VO

Deposits میں pending درخواستیں کھولیں، ادائیگی کا ثبوت اور فیس کا جائزہ لیں، پھر Approve کریں۔ Deposit Settings میں وہ کمپنی بینک اکاؤنٹ محفوظ کریں جو سرمایہ کاروں کو ٹرانسفر کے وقت دکھتا ہے — ہمیشہ درست رکھیں۔ Withdrawals میں رقم کو منی مارکیٹ بیلنس سے ملائیں اور Approve یا Reject کریں۔

Scene 5 — Change Requests & Investors

2:20 – 2:50

SHOW Change Requests: Pending → Approve / Reject. Investors: search → View detail (KYC card, wallet metrics, CRM assignment, transactions).

EN VO “Change Requests are tickets when investors ask to update name, phone, bank, or nominee — approve or reject with notes. Investors search opens the full profile: KYC status, deposited and profit totals, CRM assignment, and transaction history.”

UR VO

Change Requests وہ ٹکٹس ہیں جب صارف نام، فون، بینک یا نامزد شخص تبدیل کرنا چاہے — نوٹ کے ساتھ منظور یا مسترد کریں۔ Investors سے تلاش کر کے مکمل پروفائل کھولیں: KYC، جمع اور منافع، CRM تفویض، اور لین دین کی ہسٹری۔

Scene 6 — CRM

2:50 – 3:20

SHOW CRM home → CRM investors → investor detail tabs: Overview, Notes (Add note), Follow-ups (Add / Mark complete), Communications. CRM team: Add CRM user (admin only).

EN VO “CRM is for relationship work. Staff see assigned investors, add notes, schedule follow-ups, and log communications. Admins can open CRM Team to create new CRM logins.”

UR VO

CRM تعلقات کے کام کے لیے ہے۔ اسٹاف اپنے تفویض شدہ سرمایہ کار دیکھتے ہیں، نوٹس لکھتے ہیں، فالو اپ شیڈول کرتے ہیں، اور بات چیت ریکارڈ کرتے ہیں۔ ایڈمن CRM Team سے نئے CRM لاگ اِن بنا سکتے ہیں۔

Scene 7 — Returns, Daily markets, Fees

3:20 – 3:55

SHOW Returns: monthly return % → Apply to all users (show confirm, don't necessarily execute on prod). Daily markets: Config allocations (must total 100%), rates, Day overrides / Holidays glance. Fee management + Earnings glance.

EN VO "Returns is where you apply monthly profit percentage across users. Daily markets controls the five-sleeve model — stock, tech, debt, money, and gold allocations must total one hundred percent — plus rates, holidays, and end-of-day logs. Fee management and Earnings track company fee income."

UR VO

Returns میں ماہانہ منافع فیصد تمام صارفین پر لاگو ہوتا ہے۔ Daily markets پانچ حصوں کا ماڈل کنٹرول کرتا ہے — سٹاک، ٹیک، ڈیٹ، منی اور گولڈ کی تقسیم ایک سو فیصد ہونی چاہیے — ساتھ ریٹس، چھٹیاں اور اینڈ آف ڈے لاگ۔ Fee management اور Earnings کمپنی کی فیس آمدنی دکھاتے ہیں۔

> For "Apply to all users", show the confirm dialog but avoid running destructive actions on live production during recording — use staging if possible.

Scene 8 — Reports, Broadcast, wrap-up

3:55 – 4:30

SHOW Upload investor report PDF → publish. Broadcast: title + message → Send. Notifications inbox. Brief mention of App updates. Sign out.

EN VO "Upload investor reports as PDFs so clients can download statements in the app. Use Broadcast to send an announcement to every investor inbox. Check your Notifications badge for staff alerts. App Updates publishes a new Android build when you need a forced update. That's the full Admin workflow for ISC-WAI."

UR VO

سرمایہ کار رپورٹس PDF اپ لوڈ کریں تاکہ کلائنٹ ایپ سے اسٹیٹمنٹ ڈاؤن لوڈ کر سکیں۔ Broadcast سے تمام سرمایہ کاروں کو اعلان بھیجیں۔ Notifications میں اسٹاف الرٹس دیکھیں۔ App Updates سے نیا اینڈرائیڈ بلڈ شائع کریں جب زبردستی اپڈیٹ درکار ہو۔ یہ ISC-WAI کا مکمل ایڈمن ورک فلو ہے۔

6. Feature checklist

Feature	Must show?	Notes
Admin login + role difference	Yes	Admin vs CRM
Overview + left nav	Yes	
KYC approve/reject	Yes	Core
Deposits + Deposit Settings + Withdrawals	Yes	Core money ops
Change Requests	Yes	Short
Investors detail	Yes	Short
CRM notes / follow-ups / team	Yes	
Returns + Daily markets + Fees	Yes	Glance if tight on time
Upload reports + Broadcast	Yes	
App updates	Optional	Mention
Backdated / Auto Backfill	Optional	“Advanced — use carefully”
Investor mobile app	No	Separate investor PDF

7. On-screen labels to highlight

Admin sign in · Work email · Overview · KYC queue · View details · Approve · Reject · Deposits · View request · Approve & Complete · Deposit Bank Settings · Save Bank Details · Withdrawals · Change Requests · Investors · CRM home · CRM investors · CRM team · Returns & profit entry · Apply to all users · Daily markets · Fee management · Earnings · Company Fee Ledger · Upload investor report · Broadcast · Sign out

8. Suggested end card

EN: “ISC-WAI Admin — clear queues daily, protect investor trust, keep markets and fees configured correctly.”

UR: آئی ایس سی وائی ایڈمن — روزانہ کیو صاف رکھیں، سرمایہ کار کا اعتماد محفوظ رکھیں، مارکیٹس اور فیس درست کنفیگر رکھیں۔

Prepared for the video editor · Admin / CRM staff tutorial only · Companion document: Investor tutorial brief
App title: ISC-WAI — Admin · Roles: admin, crm · Prefer staging data for recording
